## More Paper Card & Hangtag Info

- Add \$0.05 to the MSRP for any slot punch options, whether 1 or 2 punches per card, and \$0.09 MSRP per side for UV ink. There is no additional cost for microtext.
- Security add-on features for paper cards are limited. UV ink and microtext are options; factory embedded or stamped holograms are not.
- UV ink must be used in an area that will not be

printed. It can be applied on top of other pre-printed colors.

- Pre-printing of any type adds about 2 weeks to the order delivery time.
- Inkjet receptive coating is on both sides
- Cards are approximately 24 mils thick
- Semi-gloss finish
- 50 per pack shrinkwrapped with 49 packs per box for a total of 2,450 per box

\* These items are not available for paper cards.

\*\* As used above, "1" is black and "4" is any color. "1/0" means black printing on the front and no printing on the back.
